Product Description

W.R. Long: Root Rake Brush Grapple (60)

Product Information

The RBG, or Root Rake Brush Grapple, is a versatile attachment designed for use with Farm, Light Industrial, and Skid Loaders. It's suitable for machines with lift capacities ranging from 2,200 to 4,000 pounds, and it's offered in various widths from 60 inches to 84 inches. If you require dual grapples, the RBGD model is available for loaders with lift capacities between 2,500 and 4,500 pounds.

Key Benefits

- Ideal for tree service work, lot clearing, trash removal, demolition service, etc.
 - Load center is closer to the loader than on other types of grapples.
 - Heat treated bushings with stress proof zinc plated pins.
 - Root Rake tines have high carbon steel face.
 - Teeth touch when closed.
 - RBG opens to 70 inches and uses two 2-1/2 x 8 inch hydraulic cylinders.
 - Comes standard with two 50" long hoses and a set of 1/2" pioneer ag style quick couplers. 3/8" Pioneer Ag style quick couplers, 3/8" Flat Face, and 1/2" Flat Face quick couplers are also available upon request.
